COUNCIL REORGANIZED

Dr. C. B. Keller Becomes President, O. J. Payne President Pro Tem—G. O. Bonham, Fourth Ward Resigns—T. E. Adams And Thomas D. Keyes New Members.

There was a considerable reorganization of the City Council Monday night, which was made necessary, primarily by the death of Harry W. Rossel, the president, last week, and the resignation Monday night of G. A. Bonham, councilman from the Fourth ward.

Dr. C. B. Keller, who had been president pro tem., became the presiding officer, automatically and for his place in the council organization O. J. Payne, chairman of the finance committee, was elected unanimously.

There was only one candidate for each of the vacancies caused in the Fifth ward, by Dr. Keller's elevation and in the Fourth by Bonham's resignation. Thomas E. Adams was elected to fill the former and Thomas D. Keyes the latter.

Mr. Adams was present and was escorted to his seat by Sergeant-at-arms W. D. Gilbert, and briefly thanked the council for the honor conferred upon him by his election, especially from the many, who would have been available to fill the place.

Mr. Keyes was not present, and the clerk was instructed to notify him of his election.

The ordinance requiring the dimming of brilliant headlights on motor vehicles, at night within the city limits was read for the third time and passed, and another making it a misdemeanor to allow the mufflers on this class of vehicles to be open when in use.

It is understood that the mayor and police department will take means to strictly enforce these ordinances and not allow them to become dead letters.

There was little important legislation passed, but a number of communications were read during the session.

The following members answered to the roll call when President Keller called the meeting to order: Astbrook, Baker, Knauber, Legge, Payne, Rexroth and Seward.

Clerk J. S. Woodward read the minutes of the previous meeting which were approved.

W. C. Seward placed in nomination Thomas E. Adams of the Fifth ward to fill the vacancy occasioned by the elevation of Dr. C. B. Keller to the presidency of the council, owing to the death of Harry W. Rossel. There was no other nomination and Mr. Adams was elected and took the oath of office administered by Solicitor Ralph Norpell.

Thomas E. Adams, the new councilman from the Fifth ward, has been a resident of Newark for many years, being a well known gardener whose home is in West Granville street. He has never before held any public office.

START RUN ON GERMAN BANK IN NEW YORK

(Associated Press Telegram) New York, Aug. 4.—More than 1000 depositors gathered today at the German Savings bank, one of the largest in the city, forming a line four abreast, for a block and a half. Each was allowed to withdraw only \$100 and those who sought more funds were required to file the 60 day notice agreed upon by all savings banks in the state.

Most of the depositors of the bank are Germans and Slavs. The run was started, it was said, by the spreading of a rumor that the bank purposed to assist Germany in the present crisis by advancing funds.

BIG OCEAN LINER IS IN DANGER OF BEING CAPTURED

(Associated Press Telegram) New York, August 4.—The Kaiser Wilhelm II. of the North German Lloyd line, due in this port this morning from Bremen, had not arrived at 11:30. Neither had the vessel sent by wireless her position to Cape Race and Sable Island, as is customary. The Kaiser Wilhelm II. sailed from Bremen on July 28 and from Cherbourg July 29.

How Russian Recruits Are Taught to Kill.

The raw Russian recruit, who is held as a reserve for times such as have come in Europe, is being hurried into the great mobilization camps of the Czar to make up the enormous army of 1,280,000 he is now gathering for defense against Germany or attack on Austria. These troops are taught actual use of the bayonet long before they even get a uniform.

In the case shown in the photograph the recruit is stabbing a dummy figure with a bayonet, under the instructions of non-commissioned officers. He is taught the vital places in the human body that he may waste no strength. Every Russian soldier who withstands a charge of German or Austrian infantry will know where to place his bayonet to end as quickly as possible the earthly career of his foe.

Ten State Positions To Be Filled at the State Wide Primary

Columbus, Aug. 4.—This is the wind-up week in the campaign preceding the first state-wide primary ever held in Ohio. Nearly eight thousand candidates are seeking nomination on the Democratic, Republican and Progressive state and county tickets, subject to the primaries which will be held Tuesday, August 11. There are ten state positions, including governor and United States senator to be filled by each party, and an average of 20 places on the county ticket, including congressman.

Republicans have the most contests, both on state and on county tickets. Progressives have but one candidate for nomination for each state office and most county primary ballots will show few contestants among aspirants for nominations of this party. The fight of Joseph B. Foraker of Cincinnati, former United States senator and governor to return to the senate as candidate of the Republican party will continue to attract probably more attention than any other in the final campaigning campaign this week. Next in general interest is the rather close race between Congressman Frank B. Willis of Ada and David Tod of Youngstown for the honor of making the Republican fight for governor.

Governor James M. Cox has Congressman John J. Whitacre of Canton as his opponent for the Democratic gubernatorial nomination. Several individual campaigns are being waged by Republicans and Progressives to have their names written on the primary ballots as candidates for the position of clerk of the supreme court.

By a change in attitude, of Secretary Graves, there are vacancies on both these tickets for supreme court clerk.

Several Progressives also are said to be working the same plan, but they have not reported their activities to the senate headquarters here.

John H. Clark of Cleveland, having received the appointment as United States district judge at Cleveland to succeed Judge William L. Day who resigned, has been eliminated from the fight for the Democratic United States senatorial nomination. On the Progressive ticket Daniel Webster Williams of Jackson for lieutenant governor, Frank W. Woods of Medina for secretary of state, Samuel E. Douglas, of Euler county for treasurer, and John P. Turner of Cambridge for attorney general, will be nominated.

These are the ten state positions to be filled: Governor, United States senator, lieutenant governor, secretary of state, treasurer, attorney general, chief justice of the supreme court (two to be nominated), positions which will be voted on in each county include state legislative, county judicial, county administrative, congressional and political places. They are: Judge of the court of appeals, common pleas judge, congressman, state senator, representative to the general assembly, common pleas court clerk, sheriff, auditor, commissioner (three to be nominated), treasurer, recorder, surveyor, prosecuting attorney coroner, member of the state central committee, and member of the county central committee.

OVER BILLION DOLLARS WILL BE AVAILABLE

By Amendments to Banking Law Now Ready for President's Signature.

(Associated Press Telegram) Washington, Aug. 4.—Amendments to the bank law extending issues of currency to 125 per cent. of capital and surplus of banks and trust companies in the federal reserve system, were finally passed in the house today. More than a billion dollars will be available for additional circulation.

The senate promptly agreed to the amendments, which then went to the White House for President Wilson's signature.

STEAMER CARRYING MILLIONS

Arrived Safely In Bar Harbor Early Tuesday Morning

CAPTURE WAS IMMINENT

At One Time But Big Vessel Escaped In the Fog—Kronprinzessin Cecilie Was Probably Finest Sea Prize Ever Open to Capture.

(Associated Press Telegram) Bar Harbor, Me., August 13.—The North German Lloyd steamer Kronprinzessin Cecilie, carrying more than ten million in gold and whose whereabouts has been more or less of a mystery since she sailed from New York last Tuesday arrived in the harbor here today.

The Cecilie dropped anchor here at 6 o'clock this morning after a forced run of four days, her officers fearing capture.

With a cargo of ten millions in gold and a million in silver consigned to French and English bankers, an estimated value of over five millions in herself, the Kronprinzessin Cecilie has constituted probably the finest sea prize ever open to capture.

As she crept along the Maine coast and into harbor under the cover of the night, each deck at every port hole was blanketed with canvas so that not a gleam of light betrayed her whereabouts. Her four stout stacks had been tipped with black paint so that she resembled an English steamship.

At one time capture was imminent. Captain Polack reported on Sunday that he had intercepted a wireless message from one French vessel to another giving warning of the Cecilie's proximity but under the protection of a provincial fog the North German Lloyd liner escaped.

The Kron Prinzessin Cecilie left New York early last Tuesday morning bound for Bremen via Plymouth and Cherbourg.

She had 350 first class, 130 second class and 736 steerage passengers.

About a third of the first class are Germans who sailed to anticipate the war crisis whose sudden precipitation drove them back to America. Most of the rest are Americans. Friday night while a dance was in progress one of the passengers noticed that the position of the moon had unaccountably shifted to the port side of the ship. Before the meaning of this was realized the captain called the men into the smoking room.

"Gentlemen," he said, "war has been declared between England, France, Germany and Austria; we are going back to America. We have enough coal for our return home and it is my earnest hope that we shall not be intercepted by foreign war vessels."

There was nervous laughter as, oaths, containing protests which gave way to a grave state of apprehension, as the seriousness of the situation became apparent. Electric lights were turned off and the ship was covered from prow to stern in a shroud of canvas. This smothered whatever beams of light escaped through chinks in the stateroom windows. According to the ship's log, she was then 46.46 north latitude, 30.21 west longitude. In two days she would have docked at Plymouth. A group of financiers on board offered to buy the ship and sail her under American colors. But to all proposals the captain replied that his duty was spelled by his orders from Bremen which instructed him to turn (Continued on Page 16, Col. 1.)

POSTPONE THE TOD TRIAL AT CAPITAL CITY

(Associated Press Telegram) Columbus, August 4.—The trial of David Tod of Youngstown, candidate for the Republican nomination for governor, in police court here on a charge of committing libel against Fred M. Sayre, Franklin county editor, was postponed until tomorrow morning by Police Judge Samuel G. Osborn.

The original affidavit of Auditor Sayre on which Tod's arrest and prosecution was based, was knocked out by Judge Osborn, but Sayre filed a new affidavit amended, to specify that Tod had injured Sayre's personal reputation by his statement given to newspapers that Sayre had solicited \$5,000 as a condition of giving Tod Republican support in Franklin county.

Tod's attorneys attacked Sayre's affidavit yesterday, asserting it was not sufficient to cause Tod's arrest.

Germany Prepared to Carry Through Plans By a Force of Arms

SPLENDID SPIRIT OF AMERICANS

(Associated Press Telegram) London, August 4.—Arriving today on what probably will be the last boat for some time from the Hook of Holland, W. T. Metzraht, of New Brunswick, N. J., reported that the harbor at the hook was being mined and the countless Americans were stranded in the Netherlands. He said:

"At Hanover, Prussia, where I stopped while on my way to Berlin I saw a woman and her two children with \$2,500 in checks but without any cash. The American consul was unable to aid her. "Americans, however, are showing a splendid spirit and are dividing their last crust. We traveled for 24 hours without food, locked in the cars all night in cramped positions. There was great suffering but the children and the women remained game."

Wellesley Harrington, of Albany, New York, saw a German who was said to be trying to escape service dragged from a railroad car by soldiers. Later it was reported that the man had been shot.

"All the tourists say that the enthusiasm for war in Germany is past belief. There was a big line of people in the street in front of the American Express Company offices in London today waiting to cash checks. Two hours were required for a person to get his money. Great crowds also thronged about the steamship offices."

DELANO WILL BE A MEMBER OF THE BOARD

(Associated Press Telegram) Washington, Aug. 4.—Frederick A. Delano, of Chicago, has accepted a place on the federal reserve board, and President Wilson will send his nomination to the senate today.

GOV. J. M. COX TALKS ON THE FOLLY OF WAR

(Associated Press Telegram) Columbus, August 4.—"This war is an awful blight on our civilization, but it probably will have the good effect of forever hereafter preventing warfare," said Governor James M. Cox today. "I think these European nations with their improved means of killing men will be so steeped in blood and will become so sick of death and devastation that they will be shocked into a sensibility of the folly of war."

"This possible result is the only justification for the terrible conditions that soon will prevail in the European countries now at war. I am glad this nation is not embroiled, and I hope we will continue to live in peace here."

State Auditor A. V. Donahey suggested that citizens of Ohio and every other state should begin immediately to consider the intimate effect the war will have in this country, by making high prices and sluggish industrial conditions.

"As soon as this European war is over, the United States will rise to the foremost world power," continued Mr. Donahey. "We will wrest from Great Britain this place, for we then will be called upon to furnish quantities of agricultural and industrial products. We will have a business boom such as this country never saw before."

Officials in the adjutant general's headquarters traced movements of armies on European maps, in an effort to predict future movements.

GERMAN RECRUITS LEAVE CLEVELAND

(Associated Press Telegram) Cleveland, Aug. 4.—Fifty recruits to the Kaiser's army, were given tickets to New York today and ordered to report at the Erie depot for entraining. The men hope to leave New York for Germany via Rotterdam, Saturday.

Consular Agent Schwan said he expected German recruits to be shipped from Cleveland at the rate of 20 a day until the 500 he expects to answer the call are sent.

Raymond Matticks, who is traveling for the Swisher & Son Cigar company, left Monday afternoon for Pennsylvania.

GERMANY PREPARES FOR WAR

(ASSOCIATED PRESS TELEGRAM)
London, Aug. 4.—Germany's reply to Sir Edward Grey's speech indicating the British attitude in regard to the violation of Belgian territory by Germany was a second ultimatum from Berlin to Brussels saying Germany was prepared to carry through her plans by force of arms if necessary.

The British government was officially informed by Belgium today that German troops had invaded Belgium and that the violation of that country's neutrality, which the British foreign secretary intimated must be followed by action on the part of the British, had become an accomplished fact. Definite announcement of Great Britain's intentions under this grave affront was expected in the house of commons this afternoon.

In the meantime John Burns has resigned from the British cabinet and Viscount Morley's absence from its meeting today indicated that this other strong peace advocate had also determined to leave his colleagues. Diplomatic relations had already been severed last night between Germany and France and the German ambassador in leaving Paris informed the French premier that Germany regarded herself in a state of war with France and had handed the French ambassador in Berlin his passports.

The open breach between France and Germany was rapidly followed by the appearance of German troops on French territory and by an incursion of bomb-hurling German aeroplanes which attacked the fortified town of Lunerville without doing anything more than damage to a roadway.

French airmen and outposts were also reported to have made raids on German territory. A more tangible occurrence was the bombardment of a French naval station at Bona, Algeria, by a German cruiser, which, however, retired before doing much damage and is cruising around the Mediterranean sea, where a considerable number of French war vessels are looking for such marauders.

What the British admiralty intended to do was not ascertainable and no news was made public as to the movements of British war vessels. Preliminary military moves and possible later developments were being taken, however. This became known through a suggestion issued by the admiralty to British ships bound for continental ports north of Calais. These were advised to divert their course to ports in the United Kingdom in the interest of the national welfare. As the fighting between Austria and Serbia, the original combatants in the war which has spread over the greater part of the European mainland, reports come from Nish, Serbia, that the Austrians had suffered a sharp repulse and heavy losses at the hands of the troops of the Balkan nation.

WAR DECLARED BY THE FRENCH MINISTER TODAY

(ASSOCIATED PRESS TELEGRAM)
Paris, August 4.—The French minister of war today issued the following note: "The German ambassador has demanded his passports and diplomatic relations between France and Germany have been broken off."

"War is declared. The first act of the German's according to information from a positive source to the minister of war was to execute M. Samain, former president of the French war society, who lived in Metz and to imprison all the members of that society."

The French government intends to introduce into parliament today several bills to meet the expenses of the war and to regulate business. Another measure to be introduced will extend the moratorium to other debts including house rent.

Before diplomatic relations between France and Germany were formally severed last night Baron von Schoen, the German ambassador, an official letter to the French government declared French aviators had flown over the German and Belgian territory and that in presence of these premeditated acts of aggression by the French the German government considered itself in a state of war with France.

Premier Viviani in reply protested against the allegations regarding the French aviators and reminded the German ambassador that France had presented a note on Saturday last in reference to the violation of French territory by Germany. In reply to the ambassador's declaration that a state of war existed Premier Viviani asked the German government to hand to the French ambassador in Berlin, his passports. Ambassador Jules Cambon has been instructed before leaving Berlin to protest to the German government against its violation of the territory of Luxembourg and against the presentation of a German ultimatum to Belgium.

Further reports from Lunerville indicate that great excitement was caused there by the dropping of bombs from a German aeroplane. One of the main thoroughfares was damaged and also a large barn but nobody was injured.

BIG CHANGES IMPROVES THE FAIR GROUND

Indications were never better for a great fair in Licking county than this year, according to Secretary E. M. Larson of the county agricultural board, which met Saturday to consider applications for judges. Applications were referred to heads of the departments.

After this year an effort will be made to induce Newark merchants to erect a "merchants' building," to be occupied each year with the displays of those joining in the movement. This will be made necessary by the continuous growth of the list of entries and the consequent limiting of floor space. This year the big dance hall is being called into commission to accommodate the vegetable displays, while the entire theater building will be devoted to grange exhibits, with which the board is taking special pains.

The county W. C. T. U. will soon erect a beautiful rest room on the grounds.

The board visited the fair grounds in a body and spent two hours in it looking and providing for needed improvements and repairs.

Men are at work mowing and cleaning the grounds, and a gang of carpenters will be put to work next week on several small new buildings, fence and barn repairs, etc. This work is in charge of C. D. Lake, superintendent of grounds.

New cement floors will be put in the hog pens, the cattle barn will be lighted by new windows, and Samuel Walker, who has charge of the cattle department, was instructed to rent a large tent to accommodate the cattle men. A new west porch will also be added to the horse barn.

BIG ADVANCE IN PRICES ON CHICAGO BOARD

(ASSOCIATED PRESS TELEGRAM)
Chicago, August 4.—Wheat today became active again on account of news that there might be some outlet to Europe for the grain and the leading option jumped 3 5/8c on the board of trade before there was any reaction. The top of the advance was reached after news had come that a bill admitting foreign ships to American registry awaited only the president's signature. Brokers assumed that the effect of the enactment would be an immediate enlargement of export demand.

Every article traded in on the board of trade showed steadiness. This was especially true of provisions, in which there were startling declines yesterday. A report that foreign governments had placed orders in Chicago for provisions caused the advance to continue rapidly. The rise in wheat amounted to 3 5/8 cents before there was any reaction.

How to Lose Your Tan, Freckles or Wrinkles

A day's motoring, an afternoon on the tennis ground or golf links, a sun-bath on the beach or exposure on a sea trip, often brings on a deep tan or vivid crimson or, more perplexing still, a vigorous crop of freckles. A very necessary thing then is mercurized wax, which removes tan, redness or freckles quite as easily. It literally peels off the affected skin—just a little at a time, so there's no hurt or injury. As the skin comes off in almost invisible particles no trace of the treatment is shown. Get an ounce of mercurized wax at your druggist's and use this nightly as you would a cold cream, washing it off mornings. In a week or so you will have an even, transparent and of a most delicate whiteness.

Wrinkles, so apt to form at this season, may be easily and quickly removed by bathing the face in a solution of powdered saxatite, 1 oz., dissolved in which half 1/2 pt. T. V. is not only a valuable astringent, but has a beneficial tonic effect also. Advertisements.

Magistrate Scott's Court.

Magistrate Scott maintained his equanimity throughout Monday afternoon when called upon to determine whether a shaking of fists and an interchange of swear words among members of a crowd of women—really endangering the welfare of somebody. The matter proved of interest to a number of spectators great enough to crowd the court room, and almost as many witnesses. Mrs. Carrie Myers was the defendant and a Mrs. Mildred the prosecuting witness. These and two or three other women, residents of Amherst addition, near Roe avenue and East Main street, became involved in a brawl over the reported authorship of several choice bits of scandal, which brought on a free-for-all argument in the streets, July 24. The suit resulted.

It will be recalled that following the appeal of Mrs. Oxley's alimony suit to the court of appeals, and subsequent dismissal, suit for divorce was filed by Mr. Oxley in Probate court, and was followed by a petition for alimony for Mrs. Oxley. Attorneys Norpell & Norpell and Fitzgibbon, and J. R. Davies are interested.

COUNTY BUDGET COMMISSION TO MEET ON MONDAY

If Licking county tax-payers have any kick on the levy or estimates, they will be given a chance to make known their objections before the near future. The commission held its first meeting last Monday afternoon and organized by electing Mayor R. C. Bigbee president, County Auditor J. W. Hursey secretary, and C. L. V. Holtz secretary to the commission. County Prosecutor J. Howard Jones is the third member of the commission proper.

Owing to the fact that the state tax commission is not quite ready for the budget commission to get to work, because of the fact that all utilities have not yet been reported, a request was forwarded to the county budget commission to adjourn its meeting until next Monday at 3 p. m.

It is likely at that time the dates of hearing objections of taxpayers will be fixed. In some counties the places of holding these protest meetings are scattered all about throughout the county, but members of the Licking commission do not appear to favor that idea. It is probable all hearings will be held in the office of the county auditor.

DOUBLE HEADER AT RIVERSIDE PLAYGROUNDS

The team from Heiseys and Riverside playgrounds engaged in a double bill of baseball on the latter's grounds yesterday afternoon. Heisey's winning first game 15 to 10 while Riverside came back with a 16 to 7 score in the last game. These teams have played eight games during the summer and the best spirit prevails, although there is a strong rivalry. Naylor Drumm and Wright were strongest for Riverside, while Nutter, Killworth and C. J. Sayes starred for Heiseys. The same teams play again Wednesday.

GOVERNMENT TO GIVE AID TO AMERICANS

(ASSOCIATED PRESS TELEGRAM)
Washington, August 4.—The armored cruiser Tennessee will sail from New York at 3 p. m. tomorrow with between five and eight million in gold for Americans in Europe.

The source from which all the gold will be taken had not been fully determined today but will be arranged at further conference between officials and New York bankers. A navy paymaster will go in charge of the treasure.

(ASSOCIATED PRESS TELEGRAM)
Washington, August 4.—Congress is to be asked immediately to appropriate \$2,500,000 to relieve Americans in Europe.

The armored cruiser Tennessee, or North Carolina will be used for sending gold to Europe, in accordance with the plan announced today at the White House.

The nations involved in the war will be informed of the purpose for which the gold is being sent to Europe in order that no complications may follow.

President Wilson today approved the detailed plans which were drawn up last night at a conference between Secretary Bryan, Secretary McAdoo, Robert Lansing, Solicitor of the State Department, Counsel for the American Express company and Benjamin Strong, a New York banker.

Congress will be asked to empower Secretary McAdoo to appoint fiscal agents in Europe to supervise the expenditure of the \$2,500,000 fund.

A. C. Miller, of the federal reserve board, will work out the details of the relief plan and to aid him, trained men from the war and navy department who are specialists in transportation, will be assigned to give their full co-operation.

Mr. Miller first will get in touch with steamship companies to get their co-operation and find what vessels will be available.

In order to get gold to Europe arrangements will be made to send a United States vessel with the consent of foreign governments under the flag of the United States, to the countries involved in the war.

The state department today cabled diplomatic and consular officers abroad to assemble all Americans in the countries involved and have them ready to embark for home.

Officials have been told it will be possible to get enough steamers from the coastwise service and plans are being laid for chartering the necessary number.

ELOPEMENT OF YOUNG COUPLE TO CINCINNATI

Paul Bieberbach, 21 and Miss Rachel Johnson, 18, decided to be married, but not wishing to take any of their friends into their confidence they slipped away to Cincinnati and the ceremony was solemnized there on Tuesday afternoon.

The wedding took place in the Princeton hotel and the service was read by Rev. George N. Brown, pastor of the Second Presbyterian church. Mr. Bieberbach with his bride returned to Newark Tuesday evening and will go to housekeeping at 54 Penny avenue. The groom is the son of Mrs. Anna Bieberbach of South Fifth street, and is employed at the Gleichauf Furniture company. The bride has made her home with her grandparents in South Fourth street.

GREAT ENTHUSIASM FOLLOWS SPEECH OF KING ALBERT

(ASSOCIATED PRESS TELEGRAM)
Brussels, August 4.—King Albert of the Belgians presided today over a joint session of the Belgian senate and chamber of deputies in the course of an address. His Majesty declared that never since 1830 had a graver situation confronted a neutral nation. He said it was imperative that every Belgian should do his duty and resign himself to every sacrifice that might be necessary in order to prevent the violation of Belgian soil.

A scene of stirring enthusiasm followed. Deputies and senators stood and shouted in chorus the closing words of King Albert's speech. Premier de Broqueville then made a statement as to Germany's ultimatum to Belgium and the reply of Belgium, declaring that the government would not sacrifice the country's honor and that the nation would resist by every means in its power all encroachments on its rights.

He added: "The word is therefore to arms! Upon this land of ours we shall not weaken and even if we are conquered we never shall submit. Belgium supported by the united energy of her sons will not perish."

HERZOG WON JULY GOLF TOURNAMENT

J. S. Herzog defeated Prof. H. R. Hundley upon the "Moundbuilders" Country club golf links. Moving off from the clubhouse, Herzog's trophy cup donated by the club's president, Captain A. H. Heisey. The July tournament has been a great success and brought forward some close games on account of the fairness of the handicap.

SALTS FINE FOR ACHING KIDNEYS

We eat too much meat which clogs kidneys then back hurts and bladder bothers you.

Most folks forget that the kidneys, like the bowels, get sluggish and clogged and need a flushing occasionally, else we have backache and dull misery in the kidney region, severe headaches, rheumatic twinges, torpid liver, acid stomach, sleepless and all sorts of bladder disorders. You simply must keep your kidneys active and clean, and the moment you feel an ache or pain in the kidney region, get about four ounces of Jad Salts from any good drug store here, take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and is harmless to flush clogged kidneys and stimulate them to normal activity. It also neutralizes the acids in the urine so it no longer irritates, thus ending bladder disorders. Jad Salts is harmless, inexpensive, makes a delightful effervescent lithia-water drink which everybody should take now and then to keep their kidneys clean, thus avoiding serious complications. A well-known local druggist says he sells lots of Jad Salts to folks who believe in overcoming kidney trouble while it is only trouble.

BE PRETTY! TURN GRAY HAIR DARK

Look young! Nobody can tell if you use Grandmother's simple recipe of Sage Tea and Sulphur.

Almost everyone knows that Sage Tea and Sulphur, properly compounded, brings back the natural color and lustre to the hair when faded, streaked or gray; also ends dandruff, itching scalp and stops falling hair. Years ago the only way to get this mixture was to make it at home, which is messy and troublesome. Nowadays, by asking at any drug store for "Wyeth's Sage and Sulphur Hair Remedy," you will get a large bottle of this famous old recipe for about 50 cents.

Don't stay gray! Try it! No one can possibly tell that you darkened your hair, as it does so naturally and evenly. You dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, and after another application or two, your hair becomes beautifully dark, thick and glossy. ON HIKE FROM CHICAGO TO THE "SMOKY CITY"

Leaving Chicago in May to walk to Pittsburgh on a wager E. R. Lear, a young man of Duquesne, Pa., en route to the aforestated destination, arrived in Newark Monday evening after an all day hike from Columbus. The wager was \$500 and four young men started on the hike, all being representatives of the Carnegie club of their home cities.

The three other young men who started on the trip have discontinued it, so Mr. Lear will secure the wager if he reaches his destination as there are now no other contestants.

Monday night Mr. Lear received a telegram after reaching Newark that the other men had discontinued the hike.

All had 25 pounds of clothing when they left Chicago, and part of the agreement was that they were to make their way without money. Mr. Lear had 15 pounds of clothing when he reached Newark and had worn out one pair of shoes.

The other young men who started on the trip are Charles R. Wilkin of Youngstown, O.; Robert Lowder of Cincinnati, and Charles McLaughlin of Chicago, Ill.

"Needless to Have Superfluous Hair"

Says Mrs. Osgood
After years of disappointing experiments, Mrs. Osgood has found a Wonder-Remedy that quickly and safely removes all signs of superfluous hair on face, neck, arms, or elsewhere, without the slightest annoyance, or risk of injuring the skin. No scratching, needling or evil-smelling depilatories. Simply apply the prescription as directed and all unsightly, embarrassing hair quickly disappears.

Mrs. Osgood's Wonder is sold on a Money-Back basis by Evans' Drug Store, who reports many satisfied customers. All first-class druggists and department stores carry it now. Get this famous prescription today—at once—and rid yourself of every trace of superfluous hair without delay.

OLDER VINEGAR WITH FLAVOR AND AROMA

You will relish and enjoy your salads if prepared with Tweed's Brand Pure Apple Cider Vinegar. It is made from the juice of good apples, kept in a careful manner for two years.

Then treated by a modern method which takes out all sediment and settings after it is bottled in a sanitary factory, and not opened until it reaches the kitchen of the consumer.

It contains all the natural aroma and strength, and is quite superior to the ordinary vinegar for many reasons.

Sold in bottles 10c and 15c sizes at your grocers.

Tweed's Brand Ketchup, Flavoring Extracts, Laundry Bluesing and Armonia are also manufactured by us.

CANDIDATES BUSY SOLICITING VOTES BEFORE PRIMARY

Candidates are thicker on Newark streets than stars in the Milky Way, but the rivalry is of the good-natured variety in all instances. This was illustrated Tuesday morning when Police Captain Charles Swank, of Newark, and Roy Patton, of Johnston, where swapping pre-primary opinions.

The story goes that each was so absorbed in his campaign that he failed at first to recognize the other. One of the pair began soliciting the other's support for nomination and election. Patton preached for his nomination on the Democratic ticket, while Swank insisted that the only solution of the campaign for sheriff would be the election of all nine candidates.

A Railway Across the Open Sea

The Florida Keys railway runs from the mainland for a distance of 124 miles over what is practically open sea. Imagine a string of tiny islets stretching like the broken off piers of some Titanic bridge right out into the great salt ocean and you have the Florida keys. Most of them are only a few rods in extent. Here and there is one that reckons its area in acres, while four or five among them are islands rather than islets, covering several square miles. Big or little, however, they serve merely as stations for the railway, which runs over and upon them with the open sea on either side of it. Moreover, the viaducts and embankments that carry the trains, although immensely strong, are so narrow and steep that the passengers look out upon ocean only. There is no land whatever in sight during the greater part of the trip.—Exchange.

What Happened.

"Are you the man who writes all this joyous advice about scattering sunshine and giving everybody that seems worried a glad hand and a word of encouragement?"

"Yes," said the man with scarce hair and ink fingers. "I am one of the professional optimists who do that sort of thing."

"Well, I'm not going to sue you for damages or false pretenses or anything of that kind. I just want to let you know that I tried to heed your lesson. I went to one of our great cities and tried to speak words of cheer and comfort to the overburdened souls that I saw rushing past me."

"What happened?"

"Before I had cheered up four people I got arrested for being a confidence man."—Washington Star.

The Flying Frog of Java

The Javanese frog is a creature measuring between fifteen and twenty-five inches. The skin of its back is pale blue and by night looks dark green or olive brown. The frog remains motionless during the day, with eyes sheltered from the light and with belly up, clinging to its support by adhesive cushions and by its belly, which is provided with a sticky covering, and it is hardly distinguishable from the objects that surround it. At nightfall it begins its hunt for the mammoth crickets on which it feeds, making leaps covering seven feet of ground. During the leap the play of lungs filled with air swells its body. To descend from a height it spreads wide its claws and, dropping, rests upon its feet.—Exchange.

Benefits of Olive Oil

Not every one realizes the medicinal properties of olive oil. It is quite true that the machinery of the body needs oiling occasionally, like any mechanical machine which is constantly in use, and olive oil taken internally is exceedingly beneficial. A tablespoonful will aid digestion and ease liver trouble. Olive oil should be served frequently as a dressing. Taken either with salads or alone it is beneficial for catarrh either of the stomach or throat.

Making It Easy

Man (on dock)—What in the mischief are you rowing with that trunk in the bow of the boat for, Pat? Pat—Sure, an' if it was in the stern of the boat wouldn't I be rowin' uphill all the time? An' this way I'm rowin' downhill all the time.—Yale Record.

Summer Constipation Dangerous

Constipation in summer-time is more dangerous than in the fall, winter or spring. The food you eat is often contaminated and is more likely to ferment in your stomach. Then you are apt to drink much cold water during the hot weather, thus injuring your stomach. Colic, Fever, Typhoid Poisoning and other ills are natural results. It is Do-Do-Lax will keep you well, as it increases the bile, the natural laxative, which rides the bowels of congested, poisonous waste. Do-Do-Lax will make you feel better. Pleasant and effective. Take a dose tonight. 50c. at your Druggist.

WILL REPRESENT LICKING COUNTY AT EXPOSITION

Announcement was made Tuesday of Governor Cox's appointment of George O. Wilson, 15, the son of

Alex. Wilson, Newton township, as one of the Ohio delegates to the corn show and convention of corn growers at the Panama-Pacific exposition. The Wilson lad was one of the successful Licking county corn growers who won a trip to Washington last year, and has arranged to compete for a trip again this year. Details of the trip, the number of Ohio delegates and other details will be made known at an early date, when all appointments are made.

HAY FEVER VICTIMS SHOULD TRY THIS SIMPLE TREATMENT

This Simple, Harmless Remedy is Having Great Success in Curing Hay Fever, Catarrh, Etc.

Hundreds of people in this locality have tested Nostriola for Hay Fever, Catarrh, Croup and kindred affections and all speak highly of the treatment. Nostriola is a simple, harmless antiseptic, cleansing, healing balm, easily applied and no waiting for results.

The Nostriola treatment quickly reaches the sore inflamed linings of the air passages, breaks the sore spots, and strengthens the membranes so that they can resist attack and thus prevent those wheezing, sneezing, weeping spells, so much dreaded by the Hay Fever victim.

Nostriola costs but a trifle—less than half-cent a day, and brings more real relief than you get for dollars invested in many "so-called" cures.

Ask your druggist about Nostriola and get a 25c tube today. You'll wish you had tried this simple treatment sooner.

Double Value In Firestone Volume

THE big difference in quality between Firestones and ordinary tires would make Firestones cost much more under ordinary conditions.

But Firestone conditions are not ordinary.

The picked experts of the tire making industry build Firestone tires.

The largest exclusive tire factory in America produces Firestone tires.

The most efficient distributing system in America markets Firestone tires.

That's why these tires have the quality and endurance to beat all the tires of the world—and still come to you at only average price.

The record of races won on Firestone Tires has been spectacular. Their road-work in daily grind has clinched the Firestone slogan—

Most Miles per Dollar

Therefore choose Firestones—for the common-sense reason of Firestone quality put out in enormous quantity by specialists who make nothing else.

CLOGGED NOSTRILS OPEN AT ONCE, HEAD COLDS AND CATARRH VANISH

In One Minute Your Stuffy Nose and Head Clears, Sneezing and Nose Running Cease, Full Headache Goes.

Try "Ely's Cream Balm."

Get a small bottle anyway, just to try it—Apply a little in the nostrils and instantly your clogged nose and stopped up air passages of the head will open; you will breathe freely; dullness and headache disappear. By morning the catarrh, cold-in-head or catarrhal sore throat will be gone.

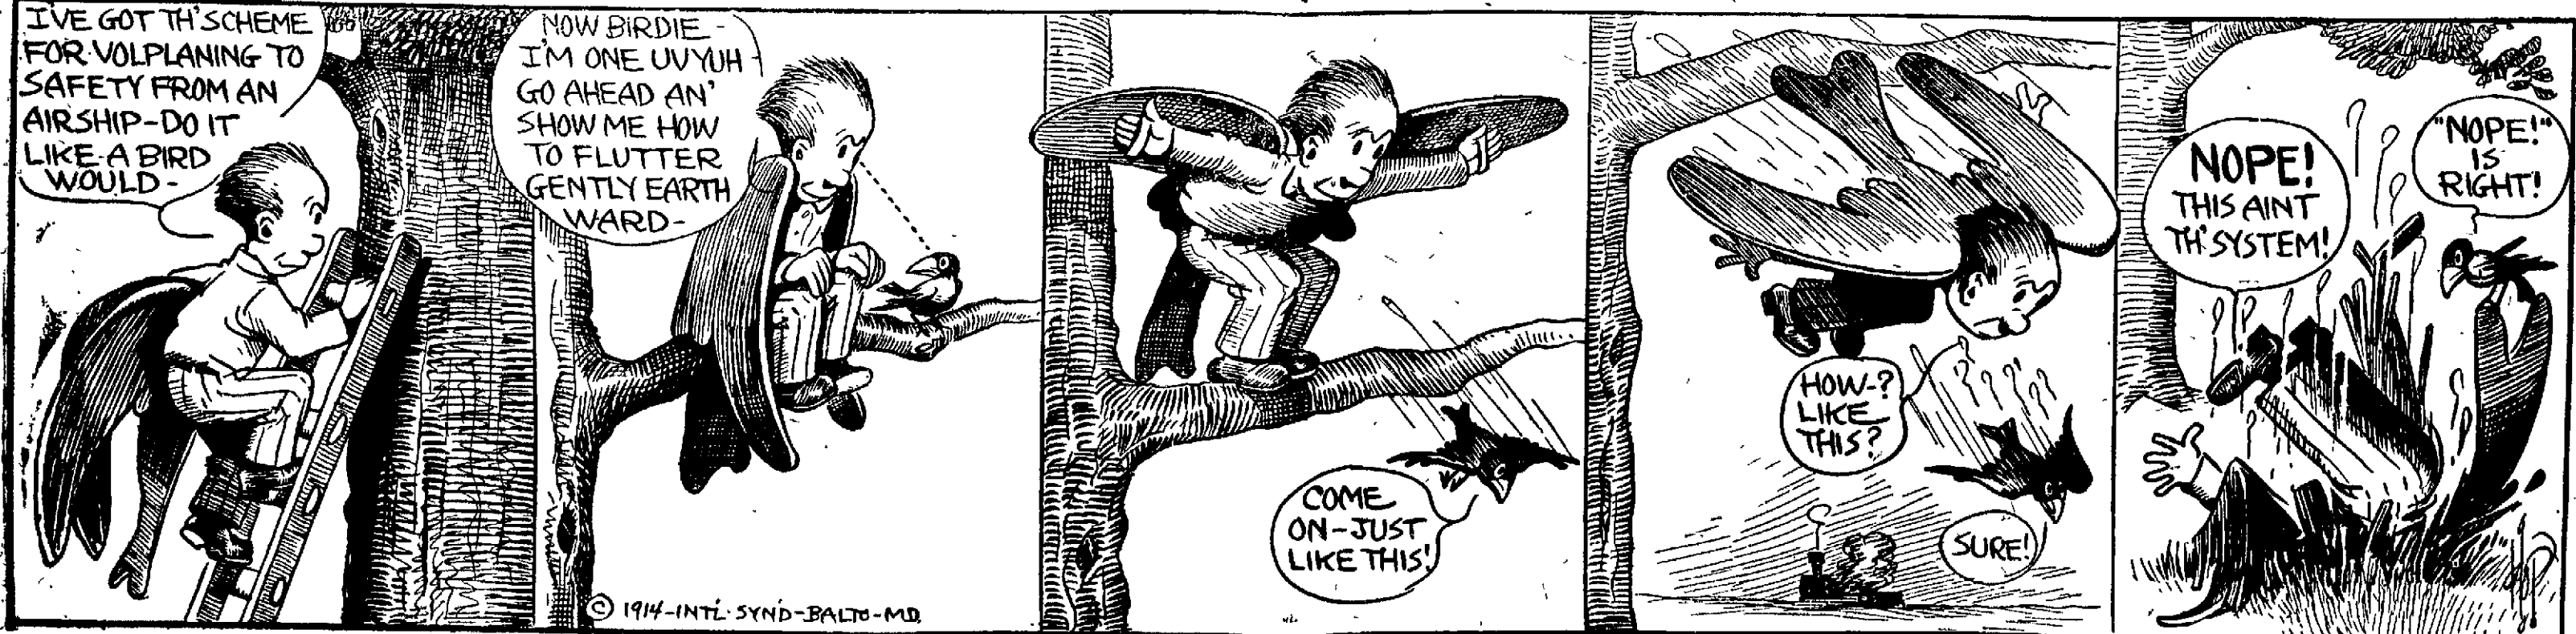

End such misery now! Get the small bottle of "Ely's Cream Balm" at any drug store. This sweet, fragrant

balm dissolves by the heat of the nostrils; penetrates and heals the inflamed, swollen membrane which lines the nose, head and throat; clears the air passages; stops nasty discharges and a feeling of cleansing, soothing relief comes immediately.

Don't lay awake tonight struggling for breath, with head stuffed; nostrils closed, hawking and blowing; Catarrh or a cold, with its running nose, foul mucus dropping into the throat, and raw dryness is distressing but truly needless.

Put your faith—just once—in "Ely's Cream Balm" and your cold or catarrh will surely disappear. F. D. Hall, 10 North Side Square, Newark, O.

STRUCK ON HEAD WITH A HEAVY SLEDGE HAMMER

Struck on the head by a heavy sledge hammer wielded by a fellow worker in the B. & O. boiler shop Tuesday morning, Andrew M. Fry, aged 24, living at 454 Baltimore street, is lying at the point of death in the Newark sanitarium.

Company surgeons, Drs. J. G. Shifer and H. B. Anderson, operated on the injured man during the early afternoon in an effort to lift a depression of the fractured parietal bone on the left side of the skull. At a late hour attendants were unable to predict more than a probable even chance for Fry's recovery.

The occurrence which may cost Fry his life, is said to have been an accident. Fry is a boilermaker and was at work with an assistant, when he got too close to the swing of the heavy sledge. Criss Bros' motor ambulance took him to the sanitarium, where he remained in a semi-conscious state for some time. As soon as he had sufficiently recovered from the shock of the accident, surgeons undertook the operation.

Fry is unmarried.

GRANT INJUNCTION AGAINST THE STATE FIRE OFFICIALS

Commos Pleas Judge Fulton Tuesday granted a temporary injunction restraining State Fire Marshal A. R. Deffenbaugh and Deputies John Baird and Louis East from interfering with the building occupied by Albert W. Davidson's hardware store in Alexandria.

Davidson's building is on Lot 15 in the village, and in addition to a stock of hardware he handles plumbing supplies and general hardware furnishings and equipment. He charges that the state fire marshal's department threatens to set his store equipment and stock into the street and destroy the building on the ground that it is a fire menace. In contradiction of their contention Davidson says the building is in good shape with exception of need of some slight repairs, which, he says, the fire marshal refuses to permit.

Bond in the sum of \$200 was required by the court. Attorneys A. A. Stasel and Flory & Flory represent Davidson.

WOMEN AND BANKING

No development in modern business methods has been of more practical value to women than their widespread use of banking facilities of all kinds. In the handling of daily expenses a Checking Account affords safety and convenience, while for the building up of a surplus fund there is no better plan than the depositing of money regularly in a Savings Account.

This bank invites Household Accounts, subject to check, in any amount, and on money deposited in its Savings Department pays interest.

Journalism in Russia.
"The style of Russian journalism," says Stephen Graham, in "Changing Russia," "is most refreshing. The brevity of the sentence and the paragraph has been developed to the absolute. I opened Satirikon one day to find heading the first article on the first page: 'Spit in my eye, reader! Spit right in my eye!'"
"There is nothing in English or American journalism equal to that. But such a sentence is not exceptional. It sets the tone of the paper, and Satirikon is read by every one, from the student to the grand duke. Every one who would not miss something essential in the Russian soul should look at Satirikon. *** It is horrible, but it is instructive. It is even powerful and refreshing if you can enter into its spirit without losing your own. It is forceful, brutal, cynical, Rabelaisian. *** Despite its monstrous pictures and its style, which permits all things, it is yet a family journal. There is nothing in it that the Russian woman finds objectionable."

Daniel O'Connell's Blarney.
Daniel O'Connell, says the British Weekly, spoke once to over 100,000 persons at an open air meeting in Birmingham. In those days women worked in the mines, and two or three wore of grimy, stalwart damsels, black and robust, with a blackness and robustness hardly ever seen now, formed themselves in front of them.

O'Connell rose and began, "Surrounded, as I am, by the fair, the gentle and the good"—Up went the grimy arms, and the grimy throats roared applause.
The fair, the gentle and the good cheered every sentence after that, and as they almost alone in the vast audience could hear what was said, their cheering was of some importance, because when they applauded the people behind applauded, and so on, till the outermost ring was reached, which rendered its tribute to the concluding sentence of the speech some time after it was over.

Merry Moving Time in Quebec.
May day is scarcely a merry one in the province of Quebec. Nearly leases prevail and expire April 30, so that the 1st of May is removal day. In Montreal and other large centers of the province many quaint scenes are to be witnessed, and it is held that you will see more furniture knocking about the streets May 1 than you ever saw in any second hand dealer's emporium. Many peculiar customs have come into being through this habit of the Quebec Canadians of fitting or removing at the same time. One of the most remarkable is that for the first three days of the month houses are held in common—that is to say, if the people into whose house you are moving have been unable to get away before your arrival you may all live together until May 3, when you can compel your predecessors to make their final exit—London Spectator.

Good Pay For Hermits.
Hermits were a century or more back regarded as a picturesque feature of country houses. Samuel Rogers records that "Archibald Hamilton, afterward Duke of Hamilton, advertised for a hermit as an ornament to his pleasure grounds, and it was stipulated that the said hermit should have his beard shaved but once a year, and that only partially." Mark Twain, the squire of Marcham, in Lancashire, offered \$50 a year for life to any man willing to live as a hermit on his estate for seven years. He was to be well supplied with provisions and books and other comforts and in return had to abstain from straying beyond his hermitage and from cutting his hair, beard or nails. The offer was accepted by a man who abode by the conditions for four years and then threw up the job.—London Chronicle.

Care of the Teeth.
The teeth should be washed, in tepid water inside as well as outside with a fairly stiff toothbrush in the morning and the last thing at night. This helps greatly to preserve them, as the primary cause of dental decay is the decomposition of particles of food left between the teeth after a meal. Washing with a stiff brush dislodges these particles, and rinsing the mouth freely afterward with some warm disinfected mouth wash completely removes them.

He Perpetrated It.
The Doctor—The janitor of the building where I live says his father and grandfather made their living by working at similar jobs in the old country. The Professor (slightly irritated)—Well, what do you want me to say—that he follows in the footsteps of his progenitors?—Chicago Tribune.

Experienced.
Ad Vetyesen—We want a man who knows both how to keep his mouth closed and how to stave off the curious. Applicant—I think I would suit you. I used to be clerk in an information bureau.—London Punch.

Reason Versus Passion.
Edmund Burke said, "Taking the whole view of life, it is more safe to live under the jurisdiction of severe but steady reason than under the empire of indulgent but capricious passion."

An Exception.
Briggs—They say that two heads are better than one. Griggs—That's all a mistake. Both my wife and I want to be head of the house, and it doesn't work at all.—Boston Transcript.

He doth not lack an almanac whose youth is in his soul.—Oliver Wendell Holmes.

Chicago Grain.
(Associated Press Telegram)
Chicago, Aug. 4.—Wheat advanced sharply today as a result of improved prospects for a speedy renewal of exports to Europe. Chief encouragement to buyers, came in the shape of dispatches from Washington that the bill to admit foreign ships to American registry was only awaiting the President's signature to become a law. The opening, which ranged from 1-2 to 1-4 a 3-8 higher, was followed by a raise of 2 1-2 to 3 5-8 cents compared with last night. September touched as high as 90; Dec. 94 and May 11.00 even.

Hot dry weather threatening serious crop damage lifted corn. After trading 1-8 to 1-4 higher, prices continued to ascend, and in some cases gained as much as 2 1-8, September reached 70.

Although oats opened lower under pressure of hedging sales, a substantial advance ensued. The cause was sympathy with the bullish course of other grain.

Provisions rallied moderately from yesterday's depression. It was freely predicted that the decline in hog prices would cut down receipts and lead to scarcity of provisions, especially meats.

The Cause Of This Mighty Slaughter

Anderson & Co. have been in the Clothing and Furnishing Goods business for men and women for several years and on account of embarking in the automobile business, which demands the entire time and attention of Mr. Anderson, manager, they are compelled to retire from retail business. The firm has done a fine business, which has been built up by strict honesty, integrity and high-class merchandise. \$20,000 worth of good, clean, first class merchandise, all thrown on the market at the mercy of the public. It will certainly be a wonderful thing to the people of this section. The stock has been turned over to E. B. Zimmerman, of Chicago, WITH ORDERS TO CLOSE THE ENTIRE STOCK IN THE VERY QUICKEST TIME POSSIBLE. Mr. Zimmerman is an expert in closing out merchandise stocks and will keep things moving from start to finish. It may be hard to believe that Anderson & Co. have decided to go out of business and would sacrifice this fine stock, but it's gospel truth and we merely ask you to come and test our statement.

Monday, the second day of the Summerland Beach Chautauqua, saw a large influx in the attendance. With the customary rapidity that follows the opening day the crowd is increasing, and in a short time, from the present outlook, the population of this elysian resort will equal that of many prosperous smaller cities. The whirlwind of religious duties and entertainment is mitigated by excellent recreation opportunities that the lake and surrounding country affords. The Chautauqua is now well under way, the patrons are established in their quarters, Bible classes have been organized, and entertainments are in full blast.

Monday morning the Bible school class was organized by Dr. J. C. Carman who, for many years, has been engaged in this kind of work. A series of lectures delivered by Dr. Carman compose the course which he conducts. Monday he lectured on "The Teaching Service of the Church." He is thoroughly evangelistic in all of his teachings, and his work is a great uplift to Bible school workers.

Mrs. J. F. Fisher, of Cleveland, is for the third consecutive season, conducting the class in mission study. Mrs. Fisher has had very much experience in the instruction of classes in mission work. For her textbook she uses "The Child in the Midst." As her topic Monday morning Mrs. Fisher lectured to her class on "The Child in Its Helpfulness." The lectures of Mrs. Fisher are not for children, but are a study of children the world over, showing the need of children of the non-Christian lands for the knowledge of the Christ child.

To his Bible study class which comes last in the morning numbers, Rev. George E. Guille, D. D., lectured on "The Excellency of Knowledge." Dr. Guille is remembered from his forcible work of last year. The Young People's work is being conducted by Rev. A. M. Dixon. This feature of the Chautauqua, started Monday afternoon, has a large attendance of the younger people who are attending the assembly. Mr. Dixon is now pastor of the Tabernacle Baptist church in Columbus, and lectured enthusiastically to his class on "Young People and the Church."

The elementary Bible school class meets at 1:30 o'clock, and the class entered into their work with zeal. The class is conducted by Miss Zoe E. Barnhouse.

The lecture "Through Africa on a Bicycle," by Rev. Gabriel McGuire, D. D., is the happening on the aforesaid trip and is full of wit and rollicking humor.

The concert by the C. E. Clark Concert Co. in the evening attracted many people outside of those staying at the beach. This company is composed of Mr. Edward Clark, baritone; Rachel Steinman Clark, violinist; and Mr. Earl Victor Prahl, pianist. Mr. Clark is a baritone of wonderful power and sweetness. Miss Steinman Clark is a violinist of wonderful power. She was born in Poland, that country that has produced some of the world's most wonderful violinists. She has the mastery of that difficult instrument. Mr. Prahl with the piano astonished lovers of music when he touched the keys of the instrument.

Tuesday being Newark Day at the

FACE A SIGHT WITH ERUPTION RESINOL CURED

Philadelphia, Pa., Dec. 5, 1913: "I had a small pimple on the side of my face, and it kept getting larger and larger. It had spread over one cheek, and as it would spread water would come from it and every place the water would touch, another sore would form. It itched and burned and my face was a sight. I used several salves and ointments that were recommended, but none helped, until I tried Resinol Soap and Resinol Ointment, which relieved me at once, and after using it about two weeks, my face was entirely clear. I cannot praise Resinol enough." (Signed) Mrs. Rose Muller, 1313 Snyder Ave.

Physicians have prescribed Resinol for nineteen years and every druggist sells Resinol Soap (25c.), and Resinol Ointment (50c. and \$1). Don't be deceived by the useless "substitutes." For free trial, write to Dept. E.K., Resinol, Baltimore, Md.

Chautauqua the attendance was swelled by those from Newark and also the delegates from the Newark churches, many of them coming early in the morning.

The class in elementary Bible school work was taken over Tuesday morning by Miss Meme Brockway. Wednesday offers an exceptionally good feature in the afternoon and also in the evening. By special request Rev. James S. Montgomery will preach a sermon, "The Mission of Jesus," instead of delivering a lecture.

Monologue readings, entitled: "A Message From Mars," will be given Wednesday evening by Adrien News. This selection is a comedy in which he impersonates many characters.

PARESIS AND DIABETES

Paresis, like coma when symptomatic of Diabetes, commonly presents a critical condition. Mr. Henry Ringo in book lines, Post street, San Francisco was in bed for nine weeks with Diabetes complicated with Bright's Disease and Paresis. To use the language of his physician, "The urine was loaded with both sugar and albumen but he would probably die of Paresis," which was so far advanced that, of nine physicians who had passed on the case none gave any hope. Patient was in a wheel-chair much of the time.

A prominent Leislander street physician administered Fulton's Diabetic Compound with gradual but steady response. The final results may be known from this. At this writing (Feb. 1914) a robust man approaching 200 pounds, devoting his energies to his business. The ability of Fulton's Diabetic Compound to reduce sugar in many cases of Diabetes in people over fifty (above patient was somewhat under fifty) is not a matter of opinion but a FACT IN PHYSICS and we will send formula that will show the percentage of sugar from week to week. As the sugar declines patients commonly improve, recovery or prolongation of life being common reports. Sugar formula and literature mailed on request. John J. Fulton Co., San Francisco. F. D. Hall is local agent. Ask for pamphlet.

THE OLD CABIN.

(By Mary Ellsworth Fuller)
I took a walk in the city, as I had time to spare,
I noticed a little old cabin, in the crowded square.
A man was passing through the gate,
his eyes were dimmed with tears,
At the sight of this old cabin, where he'd spent his boyhood years.

A land agent came along just then,
and wanted to buy the place.
He said "To the general public, this shack was surely a disgrace."
He offered him nine thousand, yes, ten thousand, he would pay,
The land was all he wanted, the shack he'd move away.

The land and cabin both are mine, the owner then replied,
There's where I spent my happiest days, before my mother died.
Beyond those dear old battered walls,
my mother's face I see,
Ten million wouldn't buy it: It's "Home Sweet Home" to me.

The agent uttered not a word, he turned and walked away.
He never forgot the lesson, that he had learned that day.
That money can't buy loyalty, no matter where you roam,
And when you see a broken shack, remember, it's some one's "Home, Sweet Home."

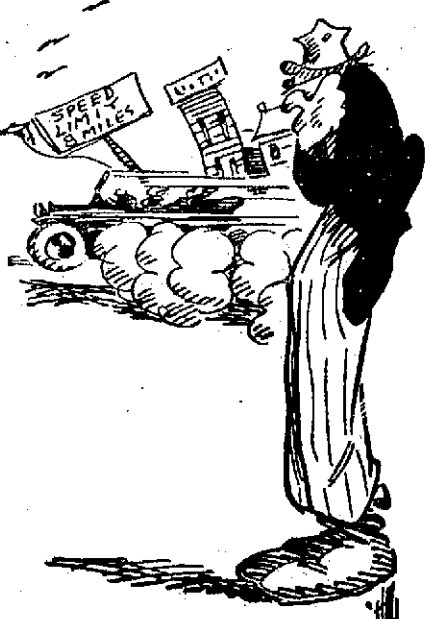

NO TROUBLE TO REMOVE SUPERFLUOUS HAIRS

(Toilet Tips.)

It is an easy matter to rid the skin of objectionable hair or fuzz, if you proceed as follows: Mix a paste with some water and a little powdered deodorant, apply to hairy surface and in 2 or 3 minutes rub off, wash the skin and the hairs are gone. This method of banishing hairy growths is painless and does not mar the skin, but to avoid disappointment, be certain to get real deodorant.

Auditorium Tonight.
Do not miss the watermelon contest at the Auditorium tonight. Six local colored boys will compete for cash prizes. This contest is sure to create a great deal of interest as a contest of this kind is sure to please you because it will be a novelty. Come to be amused as it is sure to be a big hit.

In conjunction with this contest the usual program of photo-plays will be shown.
The prices of admission to-night is only 5 cents, no advance in the usual charge.

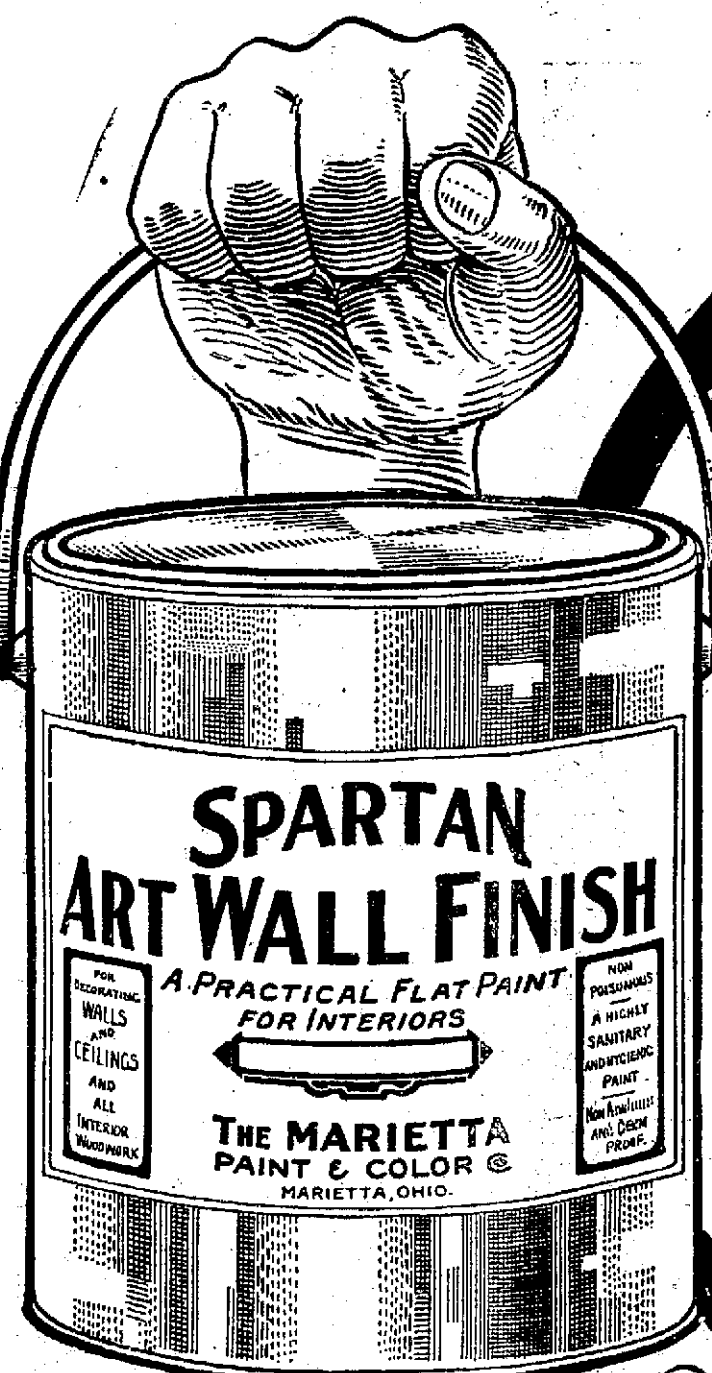

Auditorium Tomorrow.
Amateur performance at the Auditorium tomorrow evening. Come and be amused.
Max Littleman and Geo. Thompson two very clever young men, have a Western act that is sure to catch on. Pearl Thompson, a local colored boy, is a very pleasing entertainer. He is some singer and dancer.
Phil Brown, buck and wing dancer is a local boy of much talent who is said to be a good dancer.
Several other amateurs have signed.

Special Notice.
The management of the Auditorium has after much effort been successful in securing a date for the much talked of photo-production, featuring Miss Annette Kellerman. This film is entitled "Neptune's Daughters" in 8 acts.
Miss Kellerman is without doubt the best known woman swimmer in the world. She has played in vaudeville for the past four years and has several times toured the world giving exhibitions of her talent.
Of this production too much cannot be said as it is perfect in all its appointments. The scenes of this wonderful photo-play were photographed in the Bermuda Islands, a most ideal spot for a film production of this kind.

The Orphan.
The Colonial Comedy Company showed to three large audiences Monday. They have several very good acts. Among them is El Tom Ward, one of America's oldest minstrel men. He is assisted in a musical melody by Miss L. Bell, the musical girl. They are a clever pair and know how to entertain without apparently making any effort to do so. The show keeps the audience in a continuous uproar, until the fall of the final curtain.

WOMAN REFUSES OPERATION

Tells How She Was Saved by Taking Lydia E. Pinkham's Vegetable Compound.

Logansport, Ind.—"My baby was over a year old and I bloated till I was a burden to myself. I suffered from female trouble so I could not stand on my feet and I felt like millions of needles were pricking me all over. At last my doctor told me that all that would save me was an operation, but this I refused. I told my husband to get me a bottle of Lydia E. Pinkham's Vegetable Compound and I would try it before I would submit to any operation. He did so and I improved right along. I am now doing all my work and feeling fine.

"I hope other suffering women will try your Compound. I will recommend it to all I know."—Mrs. DANIEL D. B. DAVIS, 110 Franklin St., Logansport, Ind.

Since we guarantee that all testimonials which we publish are genuine, is it not fair to suppose that if Lydia E. Pinkham's Vegetable Compound has helped any other woman who is suffering in a like manner?

If you are ill do not drag along until an operation is necessary, but at once take Lydia E. Pinkham's Vegetable Compound.

Write to Lydia E. Pinkham Medicine Co., (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

CONTRACTS FOR MANY ROADS ARE TO BE AWARDED

[ASSOCIATED PRESS TELEGRAM]
Columbus, Aug. 4.—Road contracts aggregating \$2,300,000 in forty-nine counties were to be let today by State Highway Commissioner Marker. This is the largest amount of contracts ever let in this state, and Commissioner Marker says there is no record of such a large amount having been let at one time by any country in the world.

Included in the list is a contract for building 14 miles of the national road in Guernsey county, 15 feet wide, of brick, at a cost of \$237,000 including construction and repair of bridges.

Among the counties for which jobs will be let are: Licking, Cuyahoga, Franklin, Montgomery, Clark, Muskingum, Summit and Richland.

JUDGE MUST ANSWER TO THE GRAND JURY

[ASSOCIATED PRESS TELEGRAM]
Columbus, Aug. 4.—Former Common Pleas Judge James B. Kolp of Darke county was \$5,944 to thirteen counts of which he acted as trustee, according to findings reported against him by the state bureau of public accounting today. The amount is in addition to \$4,425, findings against him in favor of the county, reported several weeks ago.

The grand jury, to which Judge Kolp had been bound, will convene tomorrow.

Getting Rid of Bot Flies.
The United States department of agriculture has thoroughly tested a very unusual cure for the disease of horses called bots. Bots are the larvae of the horse bot fly and live in the stomachs of horses. They interfere with digestive processes to such an extent as to cause loss of flesh, general poor condition and often death. Dislodging them is extremely difficult.

In the treatment tested the horse was fed a little hay and oats in the morning and allowed to go without food the rest of the day. In the evening a purgative was given. Next morning the horse was given three drams of carbon bisulphide in a gelatin capsule three times at intervals of an hour. When the capsule reached the horse's stomach it dissolved, and the carbon bisulphide, a liquid that is extremely volatile at the temperature of a horse's body, evaporated rapidly. The gas suffocated the bots and other parasites in the horse's stomach without injuring the horse in the least. The remedy was tried with complete success on a large number of affected animals.—Minneapolis Journal.

Power of the Opium Habit.
In the American Magazine a former newspaper man, who became a victim of the opium habit and is now a convict in a penitentiary, writes a dramatic account of his experiences with the drug. He gives as follows his idea of the power of the habit:

"I do not believe that any man with an opium or morphine habit of years' standing can deny himself the drug if it is within reach.

"I do not believe that any man, no matter what his previous character may have been, can use opium continuously and not have the impulse to be crooked. He may not be crooked, he may lack the nerve or the necessity to steal, but the impulse will be there, and if it ever becomes a question of theft or a habit he will steal. This is the history of every opium smoker I have ever known."

The Invention of the Panorama.
The panorama was invented by a Scotchman named Robert Barker, who obtained a license in London in 1787 and erected a rotunda on Leicester square. He was associated with Robert Fulton, the practical inventor of the steamboat, who introduced panoramas into Paris in 1796, but resigned in favor of Thayer perhaps in order to give his attention to the application of steam to boats. Thayer raised a rotunda on the Boulevard Montmartre, whence came the name of the Passage des Panoramas. Bonaparte caused plans to be drawn up for eight panoramas, in which his conquests were to be shown to the Parisians, whom he always tried to impress with the magnitude of the achievements in order to keep them faithful to his star. But these projects were never realized.

Forgetmenot.
"Ah, yes, there are still true and loyal souls in this sad world," murmured the solemn individual in the tortoiseshell glasses. "I used to know a dear girl—it was ten long years ago—and not a year has passed since that she hasn't written me a birthday letter. Always what she writes is about the same: 'Dear Alfred, I can't ever forget, not if I live to be a hundred, this day of all the days in the year. Let me once again wish you long life and happiness with all my heart,' etc."

"Very sweet of the girl," said the stout young man with the amazing waistcoat. "Very sweet of her indeed."

"Very," replied the solemn individual. "Only, you see, she writes that dashed letter to me on a different day every year."—New York Post.

The Stone Houses of Easter Island.
The remarkable stone houses of Easter Island are built against a terrace of earth or rock, which in some cases forms the back wall of the dwelling. They are built of small slabs of stratified basaltic rock piled together without cement. No regularity of plan is shown in the construction of a majority of them. The average measurement is as follows: Height from floor to ceiling, 4 feet 6 inches; thickness of walls, 4 feet to 10 inches; width of rooms, 4 feet 6 inches; length of rooms, 12 feet 9 inches; average size of doorways—height, 20 inches; width, 19 inches.

He Had a Reason.
"I notice you are very cautious in what you say about people."
"Yes."
"Why is this?"
"Well, I ain't prominent enough to claim I was misquoted."—Louisville Courier-Journal.

Ethel—Oh, I do that already. Whenever she says "For goodness' sake, get out of my way!" I do it.—Philadelphia Press.

His Definition.
Teacher—Wilfred, a bee is something we get wax from. Now, tell me, what is a bee? Wilfred—Our teacher is a bee because he's something we get whacks from.—London Telegraph.

TAKES POISON FOR HEADACHE!

Instead of Taking Coo's Harmless Headache Powders.
Millions of people have been taking headache powders that contain acetanilid and other drugs that affect the heart, simply because they didn't know that there was a ready relief for headaches that was perfectly safe and harmless. You may be taking a medicine for your headache that contains acetanilid just because you didn't look to see if it was there. If you are troubled with nervous, sick, splitting or dull headache get a time package at any drug store and see how quickly it relieves and how good you feel afterwards, instead of that dull suppressed feeling you have always had.

Mexico's Spiked Mountain.
One of the most remarkable geological freaks in Mexico is a mountain situated on the outskirts of Pachuca which presents the appearance at a distance of being covered with spikes. The sides of the mountain are closely studded with stone columns or pillars. These columns are five to twelve feet long and as large around as an average man's body. It is a remarkable uplift of nature which has the appearance, however, of being the handwork of human beings. One side of the mountain is almost perpendicular, and the stone columns protrude from the surface at right angles, forming an impressive picture. Pachuca is one of the most noted mining districts in Mexico, and it is said by geologists that this remarkable spiked mountain is out of keeping with the remainder of the formation of the mineralized region. The stone is as hard as flint and has withstood the elements for ages. The spikes form a natural battlement that makes the mountain appear from a distance like some ancient fort.

Won by a New Hat.
Rube Waddell was not only the greatest left hand pitcher in his time, but the most eccentric. Back in the late nineties Tom Loftus, who was the only man who could handle Rube in the minors, took charge of the Chicago Nationals at that time and wanted the great pitcher. He was authorized by the club owners to pay the eccentric pitcher \$3,500 a year, while two other clubs already had offered Rube more.

Loftus went out to meet the Rube one afternoon and said to the southpaw, "Come on, Eddie, sign this," and presented the contract.

"But, Tom," said Rube, "I can get a lot more."

"That's all right," returned Tom soothingly. "Just sign this and when we get to New York I'll buy you the best panama hat there is in town."

"That's a go, Tom," replied Eddie, and he signed the Chicago contract.—New York World.

Homemade Liniment.
A cheap stimulating liniment, which will be almost odorless and yet effective for outside application, can be made as follows: In one quart of turpentine mix one quart of coal oil. Pack half an ounce of alkanet root and two ounces of pulverized capsicum in a large ordinary funnel. Over this mixture pour the turpentine and oil, allowing it all to percolate through the capsicum and alkanet root. In this way it will extract the substance of the capsicum, and take on a beautiful red from the alkanet. After this has been done add one ounce of the oil of peppermint and four ounces of gum camphor. To make it more fragrant add a little oil of peppermint. This liniment thus completed is a strong, efficacious one to rub on the skin and so clean and fragrant that even the most fastidious would not hesitate to use it.—New York Telegram.

Fountain Pens Old.
If fountain pens have not attained perfection in the present day it is not because their youth warrants their indiscretions, for, according to a writer in the Pall Mall Gazette (London), this form of combined ink reservoir and pen has been in use for over 300 years. E. S. Bates in his "Fountain Pen" shows, he says, that travelers wrote with them at that time. In the following century they appear to have been in common use, a dictionary published in 1754 defining "fountain pen" as "a pen made of silver, brass, etc., contrived to contain a considerable quantity of ink and let it flow out by degrees." To use the pen the cover must be taken off and the pen a little shaken to make the ink run more freely. British patents were obtained for fountain pens in 1809, one being granted to Joseph Bramah of Rock fame and another to F. H. Foelsch for a stylographic as well as a fountain pen.

Tactful Dam Builder.
In speaking of the river regulations of the ancients Sir William Willcocks, the noted English engineer, said: "Cyrus the Great controlled the Gynides, a tributary of the Tigris, in a truly original manner. Babylonia was already peopled, and lands were needed for his Persian troops. The Gynides discharges 40,000 section feet and runs thirty feet deep in a sandy and mobile bed. He could build no regulator, so he dug thirty canals, divided the waters of the river among them, closed the river by an earthen dam and completely controlled it. As he could never have induced his wild soldiers to dig these canals for any useful purpose, he took advantage of the fact that his favorite horse had been drowned in the flood and urged his soldiers to dig the canals and dissipate the waters of the river in such a fashion that it could never again drown a horse."—Detroit Free Press.

What Saved the Home.
In the American Magazine a man who has had twenty-five years' matrimonial experience says that he and his wife were growing farther apart and constantly quarreling. The family would have been wrecked had it not been for two things, which he describes as follows:

"First was the baby—a healthy, charming child—to whom we were intensely devoted. For months the baby was about the only subject we could agree upon. The other safeguard was our sense of humor. I have since thought that no two persons should marry unless one or the other has a sense of humor. With us the sense of humor usually came to the rescue at the most trying times. One or the other of us would be stuck with the ludicrous feature of our quarrel and laugh, and pretty soon we made up."

A Mannish Lady.
An eccentric lady who was a source of great amusement to the then Prince of Wales in those earlier years was Lady Sophia Macnamara, who is described in "On the Track of the Great."

She was the most independent woman I have ever met—robust and breezy, wont to wear a hat of the kind we christened the "hard boiled egg"—an uncompromising looking plain straw hat, such as men wear, without any decoration whatsoever. Of an evening she used to sit next the heir to the British throne, listening to the music, wearing her "hard boiled egg" and smoking a big cigar, and when that was finished she would light and smoke a second. One couldn't help admiring a woman who was so absolutely indifferent to conventionalism.

A Necktie For Fish Bait.
Cigarette papers trailed in the manner of a "spinner" seem a queer bait for mackerel, but navy men have used cigarette papers with deadly effect in Dover bay. You can, in fact, catch mackerel with anything bright when they are on the run. Perhaps the best of all baits for them is a strip of skin cut from one of their captured brethren.

A piece of tin or lead foil is effective, and I once knew a man who came back from mackerel fishing without a vividly colored necktie that he rather fancied. It had made an excellent lure for the fish. Is it that the mackerel is conscious of his own brilliant coloring and therefore will take any bait with a gleam about it?—London Standard.

Simplicity in Higher Life.
The higher we rise the simpler we become. There is a childhood into which we have to grow, just as there is a childhood which we must leave behind; a childishness which is the highest gain of humanity and a childishness from which but few of those who are counted the wisest among men have freed themselves in their imagined progress toward the reality of things.—George MacDonald.

Boarder—I found something in my bedroom last night, madam, and Landlady (indignantly)—There's no such thing in the house. You must have brought it in with you. Boarder—Ah, perhaps I did—it was a five dollar bill.

An Open Letter to Property Owners—

We are introducing a new match. We call it the Safe Home Match. IT IS. It conforms, in every respect, with the recently enacted Federal law, as well as with various State and Municipal laws. It is non-poisonous. It lights anywhere. The sticks, being made from specially selected lumber, are very strong. Safe Home Matches burn with an even flame—quietly, without spark or sputter. They are inspected and labeled by the Underwriters' Laboratories, Inc. You are directly interested in everything that lessens the fire risk. Safe Home Matches do that. If everybody used them, this country would be very much better off, for there would be far fewer fires. Moral: Use Safe Home Matches and urge others to do likewise. 5c. All grocers. Ask for them by name. The Diamond Match Company
